

Interim Report

Q1
2024

Strong growth in Platform advertising revenue driving improved profitability

Highlights of Q1 2024

- **31% growth in Platform advertising revenue** to € 89.2 million in Q1 2024, compared to € 68.0 million in Q1 2023, mainly driven by increased Direct sales and Automated auction sales and the benefits of integrating and consolidating past acquisitions, including Hawk as Azerion's single media buying platform.
- **58% increase in Hawk revenue** as compared to Q1 2023, largely due to scale benefits and efficiencies from operating within Azerion's Platform and confirming the improved value proposition and synergies generated by the acquisition.
- **Total Revenue of € 119.7 million** in Q1 2024, **up 6.2%** from € 112.7 million in Q1 2023, mainly driven by higher advertising spend across the Platform Segment particularly in Direct sales, the integration of past acquisitions and notwithstanding the loss of contribution from the divested social card games portfolio.
- **Adjusted EBITDA in Q1 2024 of € 9.8 million**, an **increase of 12.6%** as compared to € 8.7 million in Q1 2023, largely driven by increased Platform revenue from advertising, particularly in Direct sales, cost savings and efficiencies from the integration of previous acquisitions and a gain on acquisition related earn-outs and notwithstanding the loss of contribution from the social card games portfolio divested in Q3 2023.
- **Total operating expenses down 23%** in Q1 2024 as compared to Q1 2023 due to delivery of ongoing optimisation and efficiency programmes.
- **Significant progress** in advancing our **product and technology roadmap**, including continued development of Performance by Azerion, Azerion's audience and data management platform, the integration of Azerion's single media buying interface and enhanced monetisation and content development solutions.
- **Signed 42 new publishers** and **connected 5 additional SSPs** to expand our digital audiences across Europe and the Americas.
- **Expanded our market position in the Nordic markets** in April 2024 by entering into a strategic partnership with Eniro Group AB, supported by the acquisition of a minority stake, to provide digital advertising services to Eniro's 50,000 SME client base and various services related to monetisation, product and technology.

Message from the CEO

"We aim to become a cornerstone partner for brands, agencies and publishers across Europe's digital advertising landscape and are pleased with our progress in Q1. Our advertising platform has seen strong revenue growth and improved profitability. The ongoing integration of our single media buying platform continues to improve our delivery for our advertising clients, while positioning us well for growth in premium advertising formats such as Digital Out-of-Home, Audio, and Connected TV. By streamlining operations, we have unlocked significant efficiencies that help drive our growth and enhance our service offerings and we continue to see benefits from our ongoing investment in advanced machine learning and AI. As our platform continues to scale, we also see a strong and attractive pipeline of opportunities for strategic partnerships."

- Umut Akpınar

Financial overview

Revenue

Revenue for the quarter amounted to € 119.7 million compared to € 112.7 million in Q1 2023, an increase of approximately 6.2%. The increase in Revenue year on year came mainly from growth in the Platform segment revenue of € 19.1 million, driven by increased advertising revenue from Direct and Automated auction sales and the integration of previous acquisitions, offset by a reduction in Revenue in Premium Games due to the sale of the social card games portfolio completed during Q3 2023 with that portfolio contributing revenue of € 11.3 million in Q1 2023 and a reduction in Revenue from AAA Game Distribution (formerly referred to as e-commerce) of € 2.1 million largely due to fewer high profile AAA game releases in Q1 2024 compared to Q1 2023.

Earnings

The operating loss for the quarter amounted to € (5.7) million, an improvement of € 2.0 million as compared to an operating loss of € (7.7) million in Q1 2023, with the benefits of higher revenue, lower personnel costs and lower other expenses, largely offset by the higher costs of services and materials and related lower comparative margins from the change in business mix arising from sale of the social card games portfolio completed in August 2023 and the acquisition and integration of Hawk.

Adjusted EBITDA in Q1 2024 of € 9.8 million, an increase of 12.6% as compared to € 8.7 million in Q1 2023, largely driven by increased Platform revenue from advertising, particularly in Direct sales, cost savings and efficiencies from the integration of previous acquisitions and a gain on acquisition related earn-outs of € 1.6 million and notwithstanding the loss of contribution from the social card games portfolio divested in Q3 2023 with that portfolio contributing Adjusted EBITDA of € 3.5 million in Q1 2023.

Cash flow

Cash flow from operating activities in Q1 2024 was an inflow of approximately € 1.7 million, mainly due to movements in net working capital, reflecting an increase in trade and other payables of € 4.2 million and a decrease in trade and other receivables of € 2.8 million, offset by € (4.5) million paid on bond related interest and € (1.5) million paid in income tax. Cash flow from investing activities for the period was an outflow of € (9.2) million, mainly due to cash outflow on past acquisitions of subsidiaries in the amount of € (3.6) million and payments for intangibles of € (4.9) million. Cash flow from financing activities in the period amounted to an outflow of € (3.2) million, mainly due to repayment of borrowings of € (1.5) million and repayment of lease liabilities of € (1.5) million.

Capex

Azerion capitalises development costs related to the internal development of assets, a core activity to support innovation in its platform. These costs primarily relate to developers' time devoted to the development of the platform, games and other new features. In Q1 2024 Azerion capitalised € 3.3 million, equivalent to 13.3% (Q1 2023: € 4.3 million, equivalent to 14.9%) of gross personnel costs excluding restructuring provision expense.

Financial position and borrowing

Net interest bearing debt* amounted to € 158.1 million as at 31 March 2024, mainly comprising the outstanding bond loan with a nominal value of € 165 million (part of a total € 300 million framework) and lease liabilities with a balance of € 18.5 million less the cash and cash equivalents position of € 29.7 million.

* As defined in the Terms & Conditions of the Senior Secured Callable Floating Rate Bonds ISIN: NO0013017657. Please also refer to the Definitions section and the notes of this Interim Report for more information.

Platform Segment

Our Platform segment includes our digital advertising activities, AAA Game Distribution (formerly referred to as e-commerce), Casual Game Distribution (being the operation and distribution of casual games) and Azerion Sports. The Platform segment generates Revenue mainly by displaying digital advertisements in both game and general content, as well as selling and distributing AAA games. Advertisers are serviced through two models: i) Direct sales, which involve a direct engagement between Azerion's commercial teams and advertisers or their agencies in the placement of digital advertisements, and ii) Automated auction sales in which advertising inventory is purchased through the open market. Platform is also integrated with parts of our Premium Games segment, leveraging inter-segment synergies.

Selected business highlights in Q1 2024 include:

- Expanded our digital audio advertising platform offering through a strategic partnership with Acast, in which Azerion will support local advertisers and agencies in Spain, Belgium, The Netherlands, Italy and Greece to execute their audio advertising campaigns on Acast's podcast network.
- Strengthened our position to deliver premium advertising solutions in the dynamic Italian media landscape through a partnership with Money.it
- Together with the Royal Dutch Football Association ("KNVB"), Azerion Sports launched a new app for the Azerion Women's League making the league more accessible and interactive for fans and expanding Azerion's ecosystem of engaged audiences.
- Azerion Sports signed an additional two clubs to its white-label fan engagement app, now totalling 23 clubs and 228,000 app downloads by the end of Q1 2024, helping clubs engage and interact with their fan base in a consolidated platform.
- Azerion strengthened its casual games distribution portfolio during Q1 2024, adding 302 new games and 54 new publisher partners.

Total Platform Revenue of € 108.4 million in Q1 2024, compared to € 89.3 million in Q1 2023, an increase of 21.4% due to increased Revenue from the Advertising platform, offset by a decrease in Revenue from AAA game key sales in AAA Game Distribution (formerly referred to as e-commerce).

Advertising Platform Revenue of € 89.2 million in Q1 2024, an increase of approximately 31% compared to € 68.0 million in Q1 2023, mainly driven by increased Direct and Automated auction sales and the benefits of integrating and consolidating past acquisitions, including Hawk as Azerion's single media buying platform. Revenue in Hawk increased by 58% as compared to Q1 2023, contributing € 16.4 million of Revenue in Q1 2024 as compared to pre-acquisition Revenue of € 10.4 million for the same period last year, largely due to the scale benefits and

efficiencies from operating within Azerion's Platform and confirming the improved value proposition and synergies generated by the acquisition.

In Q1 2024, Azerion's Direct sales contributed approximately 70% of Platform advertising revenue, as compared to approximately 65% in Q1 2023, with the balance provided by Automated auction sales. In Q1 2024, AAA Game Distribution generated Revenue of € 19.2 million as compared to € 21.3 million in Q1 2023, a decrease of approximately (9.9)% largely due to fewer high-profile AAA game releases in Q1 2024 compared to Q1 2023. In Q1 2024, AAA Game Distribution Revenue represented approximately 17.7% of total Platform Revenue, as compared to approximately 23.9% in Q1 2023.

Total Platform Adjusted EBITDA of € 9.0 million in Q1 2024, compared to € 3.6 million in Q1 2023, an increase of 150.0% largely due to growth in higher-margin Direct sales, improved spend on higher-impact ads in channels such as audio, CTV and DOOH, increased monetisation of exclusive partnerships and owned and operated content, together with ongoing consolidation and integration of previously acquired businesses and cost optimisation and a gain on acquisition related earn-outs of € 1.6 million. The Adjusted EBITDA performance also reflects the successful integration of the recent Hawk acquisition.

Avg. Digital Ads Sold per Month (bn)	12.2	13.0	12.2	12.9	12.0

¹ The reporting of average Gross Revenue per Million Processed Ad Requests from advertising auction platform (€) has been temporarily discontinued due to the ongoing integration of operational reporting data from the acquisition of Hawk completed in Q4 2023 and a review of our selected operational KPIs for this segment more generally.

The **Average Digital Ads Sold per Month** decreased to 12.0 billion in Q1 2024 from 12.2 billion in Q1 2023, reflecting an ongoing focus on premium digital advertising formats such as DOOH, digital audio, drive to store, resulting in higher CPMs and lower digital ads sold.

The selected operational KPIs include the Hawk acquisition as of Q1 2024.

Premium Games Segment

From Q4 2023, the Premium Games segment consists of social casino games and metaverse games. Azerion completed the sale of its social card games portfolio to Playtika Holding Corp. on 28 August 2023 and its contribution to the Premium Games segment ceased at that date. The segment generates revenue mainly by offering users the ability to make in-game purchases for extra features and virtual goods to enhance their gameplay experience. This segment aims to stimulate social interaction among players and build communities, offering an extended value proposition to advertisers and generating cross-selling opportunities with the Platform segment.

Selected Q1 2024 business highlights

- Introduced two new sale mechanics "Fortunas wheels" and "Offer chain" into the social casino portfolio improving user monetisation.
- Habbo continued its adoption of Web3 technology with the launch of Collector Cabinets, a feature that can convert in-game items into NFTs

- The **Average Time in Game per Day (min)** increased by 14.5% in Q1 2024 to 87 minutes per day as compared to Q1 2023 due to improved in-game sales mechanics, features and events.
- The **Average Daily Active Users (DAUs)** decreased by (19.0)% in Q1 2024 compared to Q1 2023, mainly due to lower user acquisition spend and increased focus on greater engagement with higher paying users.
- The **Average Revenue per Daily Active User (ARPDau)** increased by 7.7% in Q1 2024 compared to Q1 2023, due to improved spending in social casino and metaverse titles due to improved in-game sales mechanics, features and events.

Given the sale of the social cards portfolio in August 2023, the selected operational KPIs for all quarters have been revised to no longer contain results from the social card games portfolio.

Outlook

The guidance previously provided remains unchanged:

- Revenue for full year 2024 is expected to be in the range of approximately € 540 million to € 560 million, with annual growth thereafter in the medium term expected to be approximately 10%.
- Adjusted EBITDA for full year 2024 is expected to be in the range of approximately € 75 million to € 80 million, with annual Adjusted EBITDA margin thereafter in the medium term expected to be in the range of approximately 14% to 16%.

Definitions

Adjusted EBITDA represents Operating Profit / (Loss) excluding depreciation, amortisation, impairment of non-current assets, restructuring and acquisition related expenses and other items at management discretion, principally those assessed as extraordinary items or non-recurring items which are not in line with the ordinary course of business.

Adjusted EBITDA Margin represents Adjusted EBITDA as a percentage of Revenue.

Average time in game per day measures how many minutes per day, on average, the players of Premium Games spend in the games. This demonstrates their engagement with the games, which generates more opportunities to grow the ARPDau.

Average DAUs represents average daily active users, which is the number of distinct users per day averaged across the relevant period.

ARPDau represents Average Revenue per Daily Active User, which is revenue per period divided by days in the period divided by average daily active users in that period and represents average per user in-game purchases for the period.

Financial Indebtedness represents as defined in the terms and conditions of the Senior Secured Callable Floating Rate Bonds ISIN: NO0013017657 any indebtedness in respect of:

1. monies borrowed or raised, including Market Loans;
2. the amount of any liability in respect of any Finance Leases;
3. receivables sold or discounted (other than any receivables to the extent they are sold on a non-recourse basis);
4. any amount raised under any other transaction (including any forward sale or purchase agreement) having the commercial effect of a borrowing;
5. any derivative transaction entered into in connection with protection against or benefit from fluctuation in any rate or price (and, when calculating the value of any derivative transaction, only the mark to market value shall be taken into account, provided that if any actual amount is due as a result of a termination or a close-out, such amount shall be used instead);
6. any counter indemnity obligation in respect of a guarantee, indemnity, bond, standby or documentary letter of credit or any other instrument issued by a bank or financial institution; and
7. (without double counting) any guarantee or other assurance against financial loss in respect of a type referred to in the above paragraphs (1)-(6).

Net Interest Bearing Debt as defined in the terms and conditions of the Senior Secured Callable Floating Rate Bonds ISIN: NO0013017657 means the aggregate interest bearing Financial Indebtedness less cash and cash equivalents (including any cash from a Subsequent Bond Issue standing to the credit on the Proceeds Account or another escrow arrangement for the benefit of the Bondholders) of the Group in accordance with the Accounting Principles (for the avoidance of doubt, excluding any Bonds owned by the Issuer, guarantees, bank guarantees, Subordinated Loans, any claims subordinated pursuant to a subordination agreement on terms and conditions satisfactory to the Agent and interest bearing Financial Indebtedness borrowed from any Group Company) as such terms are defined in the terms and conditions of the Senior Secured Callable Floating Rate Bonds ISIN: NO0013017657.

Operating expenses are defined as the aggregate of personnel costs and other expenses as reported in the statement of profit or loss and other comprehensive income. More details on the reporting of cost by nature can be found in the published annual financial statements of 2023.

Operating Profit / (Loss) represents revenue less costs of services and materials, operating expenses, depreciation and amortisation and other gains and losses.

Forward-looking statements speak only as of the date they are made and Azerion does not assume any obligation to update or revise such statements as a result of new information, future events or other information, except as required by law.

The interim financial results of Azerion Group N.V. as included in this communication are required to be disclosed pursuant to the terms and conditions of the Senior Secured Callable Floating Rate Bonds ISIN: NO0013017657.

This report has not been reviewed or audited by Azerion's external auditor.

Certain financial data included in this communication consist of alternative performance measures ("non-IFRS financial measures"), including Adjusted EBITDA. The non-IFRS financial measures, along with comparable IFRS measures, are used by Azerion's management to evaluate the business performance and are useful to investors. They may not be comparable to similarly titled measures as presented by other companies, nor should they be considered as an alternative to the historical financial results or other indicators of Azerion Group N.V.'s cash flow based on IFRS. Even though the non-IFRS financial measures are used by management to assess Azerion Group N.V.'s financial position, financial results and liquidity and these types of measures are commonly used by investors, they have important limitations as analytical tools, and the recipients should not consider them in isolation or as a substitute for analysis of Azerion Group N.V.'s financial position or results of operations as reported under IFRS.

For all definitions and reconciliations of non-IFRS financial measures please also refer to www.azerion.com/investors.

This report may contain forward-looking non-IFRS financial measures. The Company is unable to provide a reconciliation of these forward-looking non-IFRS financial measures to the most comparable IFRS financial measures because certain information needed to reconcile those non-IFRS financial measures to the most comparable IFRS financial measures is dependent on future events some of which are outside the control of Azerion. Moreover, estimating such IFRS financial measures with the required precision necessary to provide a meaningful reconciliation is extremely difficult and could not be accomplished without unreasonable effort. Non-IFRS financial measures in respect of future periods which cannot be reconciled to the most comparable IFRS financial measure are calculated in a manner which is consistent with the accounting policies applied in Azerion Group N.V.'s consolidated financial statements.

This communication does not constitute an offer to sell, or a solicitation of an offer to buy, any securities or any other financial instruments.
